Subject: RE: COMMENT? Draft agenda attached FW: NRC Annual Visit

Thanks Lily—don't have much input. I guess you'll let Loren and I know when you get to the Treasure Island agenda item during the meeting. I'll try to plan to be in the office, but if not, I will be available by phone.

Subject: NRC Annual Visit

John,

Attached, please find a proposed agenda for NRC's annual meeting with EPA RIX. Could I please get your comments and thoughts on it?

Regards,
Richard Chang

US NRC

Subject: NRC Annual Visit

John,

The U.S. Nuclear Regulatory Commission staff are again beginning to plan for our annual site visits to some California sites being remediated by the Air Force and Navy. As you are aware, we have been conducting these site visits for the past many years as part of our "stay informed" approach for the Alameda, Hunters Point, and McClellan sites where we rely on EPA's regulatory oversight of the CERCLA remediation process used by the Air Force and Navy. We would like to follow a similar approach and schedule that we have used for the past many years.

As a first step we would like to get agreement on the week for our site visits and the specific days for meetings. We are proposing the week of September 12, 2016. Would you be available during this week? Typically, we travel on Monday and Friday and meet with EPA Region 9 and the Navy on Tuesday and Wednesday in the San Francisco area. Then we meet with the Air Force and State agencies on Thursday in the Sacramento area. Would you be able to support this general schedule during the week?

Once we agree on a schedule, we can suggest agendas for our meetings as we have done in the past. The agendas will continue to be an update of your activities with some specific topics to focus our discussions. We could also brief you on the final Regulatory Issue Summary regarding military radium and the signed Memorandum of Understanding with the U.S. Department of Defense (DoD) for remediation of DoD sites with radiological contamination under NRC's jurisdiction. We will bring copies of both of these documents to the meeting.

Please let me know if you can support the schedule I have suggested or if you have a preference for certain times or days for our meetings. We are looking forward to our site visits with you again this year.

Regards,
Richard Chang
